

## ABOUT LAND (LOS ANGELES NOMADIC DIVISION)

Established in 2009, LAND is a non-profit organization dedicated to curating and producing site-specific public art exhibitions. Through commissions of site-specific works with national and international contemporary artists, collaborations with art institutions and organizations, and a wide variety of programming, LAND supports dynamic and untraditional artistic practices. LAND believes that everyone deserves the opportunity to experience innovative contemporary art in their day-to-day lives. In turn, artists deserve the opportunity to realize projects, otherwise unsupported, at unique sites in the public realm.

*SENSE OF PLACE*, Jose Dávila, concrete, 2017.  
7'9" x 7'9" x 7'9" (2.40 x 2.40 x 2.40m). Anchor Site West Hollywood Park

### SENSE OF PLACE JOSE DÁVILA

*Sense of Place* by Jose Dávila is a multi-site, large-scale, public sculpture exhibition migrating through and integrating into the diverse urban landscape of Los Angeles to draw a kind of portrait of the city's many experiences, geographies and histories. *Sense of Place* consists of an eight foot square cube sculpture comprised of 40 unique concrete conjunctural forms. Initially installed in West Hollywood Park, over the course of nine months the sculpture has slowly disassembled its various pieces, migrating to 17 far reaching locales across the city such as landmarks, significant architectural sites, community hubs, etc., taking on different functional forms at each location. In this sense, the pieces have become social platforms promoting interaction with the public, who ultimately decides the final function of the artwork. Commissioned by LAND (Los Angeles Nomadic Division) and part of the Getty's Pacific Standard Time: LA/LA, *Sense of Place* is Dávila's largest public undertaking to date and his first major exhibition in Los Angeles.

### FINAL MOVEMENT - MAY 2018 / WEST HOLLYWOOD PARK

*Sense of Place* is built in six layers and transitioned in three movements in November, January and March, positioning the modular pieces in their temporary surroundings for a period of two to six months. In its final iteration in May 2018, the sculpture will return to its original whole cube re-installed at West Hollywood Park holding its travel histories in its reunited form.

### ABOUT JOSE DÁVILA

Guadalajara-based artist Jose Dávila (b. 1974) creates sculptures, installations, collages, and photographic works that use reproduction, homage, and imitation as a means to explore and dismantle the legacies of twentieth century avant-garde art and architecture. With a heightened interest in Western culture and art history, Dávila explores how the modernist movement has been translated, appropriated, and reinvented in the current discourse of contemporary art.
